

Partners & Collaborations

An Indo-German AI bridge in Pune - built for institutions, sponsors and ecosystem partners who want talent discovery, prototypes and long-term collaboration.

EVENT	DATES	STAGE	CONTACT
HackPune 2026	3–4 Oct 2026	Early outreach	hello@terns.tech

Where the world builders take flight.

No partnerships confirmed yet · all names are outreach targets

WHY THIS PARTNERSHIP OPPORTUNITY EXISTS

Aligned with the Indo-German innovation roadmap - and with 2026's shift from one-off events to innovation ecosystems.

- 01 HackPune aligns with the **India–Germany Innovation & Technology Partnership Roadmap** (7th IGC, 2024).
- 02 It gives institutions a concrete Indo-German talent, prototype and ecosystem format - not another MoU on paper.
- 03 We are in **early outreach** - no MoUs signed, no partners confirmed yet.
- 04 Early collaborators shape the inaugural edition and gain first-mover visibility across talent, startups and German challenge owners.

The format, at a glance.

DATES	3–4 October 2026 24-hour AI-native sprint · Pune, India	PARTICIPANTS	160 Indian hackers 40% students · 40% professionals · 20% anyone
